GitHub: <https://github.com/Soizic65>

Portfolio: <https://soizic65.github.io/Updated-Portfolio-2/>

### SUMMARY

Full Stack Web Developer that has experience with web development technologies like HTML, CSS, JavaScript, and JQuery, as well as many others. Previous experience working in IT, and completed an intensive Full Stack Coding Bootcamp. Asset to any team with the ability to work well under pressure, manage my time accordingly, talk through issues, and overall, work hard to get the job done successfully and in a timely manner.

### TECHNICAL SKILLS

HTML (HTML5), JavaScript, JQuery, MongoDB, MySQL, Node.js, React, SEO, Responsive Design, API/JSON, RESTful API, Bootstrap, CSS, Express.js, Git, Github, Heroku, and Command Line

### PROJECTS

#### Brewery Crawl (Group Project) <https://nameless-wave-88112.herokuapp.com/>

- **Description:** Brewery Crawl is an application that allows you to choose a brewery from a list of breweries in the inputted city, then sends a text to a selected phone number letting them know which brewery you chose and what time you're planning on being there.
- **Technologies Used:** REDIS, YELP Fusion, MySQL, JavaScript

#### Night Owl (Group Project)

<https://project3team2.herokuapp.com/>

- **Description:** Night Owl is an application that lists night life activities such as bars and nightclubs located in the inputted city. It then allows you choose one and call an Uber from the push of a button.
- **Technologies Used:** JavaScript, React.js, React Portals, Redis, MongoDB (Mongoose), JWT, BCrypt, Yelp API, and Uber API.

#### Train Scheduler

<https://soizic65.github.io/Train-Scheduler/>

- **Description:** An application that uses Firebase to host arrival and departure data.

- **Technologies Used:** HTML, CSS, JavaScript, Bootstrap, Firebase Database, Moment.js.

## EXPERIENCE

### **SWBC, San Antonio, TX - *Data Center Operator***

July 2015 - May 2017

- Ran jobs at certain times, allowing clients to receive what they needed. Was able to stay on top of these jobs and keep everything running smoothly.
- Checked on Data Center to insure there were no issues that would cause big problems for the company. Did catch several issues and was able to get them fixed quickly.
- Called programmers when problems arose in order to keep them from escalating. Praised for being quick and efficient in calling the correct people when there were problems.

### **Les Concierge (2 Places), San Antonio, TX - *Concierge***

May 2017 - December 2017

- Ran errands for USAA employees in order to help with their busy lives. Received many positive comments from regular clients as well as first time clients.
- Scheduled four employees to complete errands for well over hundreds of clients, insuring everything went smoothly and no problems arose.

## EDUCATION

### **University of Arizona, Tucson, Arizona**

*Full Stack Web Development Certificate, 2019*
